USE OF WARRANTY CERTIFICATE:

This part is to be preserved by the user and shall be presented to the supplier in case of service under warranty. The certificate along with the invoice is the only document needed to validate the warranty. It is important to keep the purchase invoice issued by the supplier at the time of purchase of the equipment.

The installation of the equipment shall be performed by the personnel authorized by the supplier. The authorized personnel will assume the responsibility of installation to conform to the specifications indicated by the manufacturer and subsequently the first operation of the instrument.

WARRANTY CONDITIONS:

1. The warranty shall be for a period of _____ including semi-annual preventive maintenance during warranty period under normal use and against factory defects from the date of delivery or shipment of goods to the client.
2. The supplier's service personnel are authorized to do repairs and maintenance services necessary to keep the instrument in good working condition. The service personnel shall have a full and free access to the instrument to provide the needed services.
3. Consumables supplies and accessories are excluded in the warranty.
4. Service and Maintenance rendered shall not include the service of Equipment where such service is required because of:
 - a. Improper use and care.
 - b. Natural disasters such as flood, earthquake, etc.
 - c. Strikes, riots, acts of war or nuclear disaster
 - d. Repairs, maintenance, modification, relocation or reinstallation made by person other than the authorized personnel and/or without the supervision and approval of supplier.
 - e. Unusual shock of electrical damage, accident, fire or water damage, neglect air condition failure, corrosive atmosphere harmful of electronic circuitry, damage during transportation by the client.
 - f. Use not in accordance with manufacturer's instruction and recommendation.
5. Warranty is void whenever the instrument will result to have been attempted to be repaired or modified or changed in any of its parts by personnel not authorized to do so.
6. Repairing under warranty shall not prolong or renew the same warranty.

Best Regards,
